## **FORWORD**

A very warm welcome from the whole Havard family to you at our inaugural Premier Production Sale. We are incredibly excited to be bringing a very strong catalogue forward for all buyers today. This Sale is the culmination of years of hard work and selection to find the cattle that work for you in genuinely low input, grass-fed farming operations. When we started working towards a truly grass-fed, low input system it was a real struggle to find cattle that worked for us. We believe passionately that low input systems are the sustainable solution for family livestock farms in the 21<sup>st</sup> Century but we need the right genetics to make it work.

Moderate, problem free cows that bring a calf every year are what pay the bills. You can keep two 500kg cows for every 900kg monster without losing much in weaning weight per animal when put to a terminal sire. You will never make up that extra beef in growth rate or muscle. At a time when markets, currencies and politics seem to offer only more volatility it has never been more important to control your costs. If your costs of production are as low as possible you are insulated from inflation while benefiting from price rises. A common refrain you hear these days is “prices are good but they need to be”. This tells a tale of sky-rocketing input costs, where prices rises have been soaked up before they filter to the bottom line.

These moderate cows work hard for us all year and save us £1000s in the process.

Fertility is the number one profit predictor in suckler beef systems and last year we scanned out cows 97% in calf with 87% in the first cycle (first 21 days). It has been a real joy seeing a renewed focus on this in the industry and we are excited about the progress we can all make in this area as we all move forward.

We wish you the very best with your bidding and look forward to working with you in the years ahead. We're always keen to follow the breeding stock our customers buy and we hope this sale will be the start of lasting relationships. We'd be delighted to work with you in the future — perhaps even to buy back some of your future progeny.

Huge thanks to the Aberdeen Angus Society and Worcester Market for all their help with the sale, my fiancé Lizzie for all her work on this as well as all the help and support of our family and staff. It simply wouldn't be possible without you.

***Rob Havard***

## OUR BULLS

### **Kaiser**

Kaiser is 10 years old this year and is still working. This year he ran with 83 cows in competitions with another 3 bulls. There are not many bulls that last that long, especially with that kind of mate competition. He has sired the most fertile predictable breeding females at Phepson Angus and he will live out his days here. We just love the Kaiser daughters.

We have available 5 lots of semen from our foundation sire Kaiser. These straws usually retail at £45/straw.

## **Phepson Elite**

All muscle and a fantastic breeder – Still going strong at 8 years old. Some of the best leg and bone structure you will see. His calves kill out very well and he offers a nice balance to the feminine Kaiser Daughters.

## **Phepson Ender**

Another really promising younger bull. Ender has lovely structure and his mother was a real favourite and a true “Bull Mother”. We are really excited to see how Ender develops in the next few years.

## **Phepson Eukon**

A promising young bull out of our very fertile Eulima Sarah family. We have high hopes for Eukon. He's a real moderator for bigger cows and had perfect structure.

## **Phepson Paddington – Lot 51**

A lovely young bull who is forward for the sale. He has worked for us for 2 years, having also worked as a yearling. He is one of the best bulls we have bred and is a carbon copy of his father Phepson Alex. We really hope he finds a good home at the sale. This year he was the main herd sire for one of our mobs of pedigree cows.

## Phepson Alex

Phepson Alex has been a great bull for us. Now sold to a long-time customer in the south of England he was the lead herd-sire on one of our farms for 4 years. He is a very correct bull with excellent muscle and also a breeder of lovely females. He is the sire of some of the females forward today.

## **SEMEN**

*Fertility is the number one profit predictor in suckler beef systems and Kaiser is well known for this trait. When he was collected at Stud he was yielding up to 1100 straw per collection – Almost 4 times the average expected collection. One can only imagine the impact of this kind of fertility across the herd in the long-term. All the research shows that fertile bulls produce fertile females (and vice versa). This is the 1<sup>st</sup> time that we have offered semen from Kaiser for sale at public auction. Don't miss your chance to add some fertility to your herd.*
